## INTRODUCTION

In an article in Chappell and Wilson's *The Australian Criminal Justice System*, A.G. Hess has pointed to the need for the establishment in Australia of a national clearinghouse, to function as a 'centralised information unit which serves as a source of data and/or information to research workers and practitioners in the field'.

The Australian Institute of Criminology has established such a clearinghouse and a great deal of information concerning Australian and Australian-related publications, completed and on-going research is being collected. This information is being computerised to enable an efficient criminological information retrieval system to be developed.

In the belief that duplication of research is undesirable, particularly in a field where manpower and funds are scarce, the Institute has decided to use this *Information Bulletin* as a means of disseminating information concerning Australian or Australian-related publications and research of criminological significance. Also included is information supplied by correspondents from each Australian State and the Northern Territory as to criminological seminars and meetings which take place in their respective jurisdictions. However, information from any source regarding matter to be included in the *Information Bulletin* would be welcomed and should be sent to the Editorial Committee.

The *Information Bulletin* is published quarterly and readers who would like a statement of their current or recently completed research to appear in the *Information Bulletin* are requested to detach from this issue the appropriate page, to complete it and return it to the address below.

Readers will appreciate that the clearinghouse information contained in the *Information Bulletin* is based largely on direct information supplied by individuals and departments and can only be as accurate and reliable as its source.

The Australian Institute of Criminology appreciates the response which it has already received in establishing the clearinghouse and it is hoped that the service it provides will assist the promotion of Australian research into criminological problems which urgently require attention.

#### COMMONWEALTH LAW REPORTS NEEDED

The J.V. Barry Memorial Library is most anxious to obtain a complete set of Commonwealth Law Reports as these are constantly needed for legal research. A set could be purchased for approximately \$2,900 but this amount of money is not available within the Institute.

By Section 7(c) of the Criminology Research Act 1971, the Institute may 'accept gifts, devises and bequests', and would most willingly accept a gift of a set of Commonwealth Law Reports or a cash donation which would facilitate their purchase.
