INTRODUCTION

The Australian Institute of Criminology has established a national clearinghouse of criminological information to act as a central agency for the collection, storage, exchange and dissemination of bibliographical data on Australian and Australian-related criminological material.

This information is stored on computer and forms the data base of CINCH (Computerised Information from National Criminological Holdings), the Institute's computerised bibliographic service which provides rapid and comprehensive retrospective searches.

The *Information Bulletin of Australian Criminology* is published quarterly and is an integral part of this system, publishing in its 'Recent Publications' and 'Current and Recently Completed Research' sections all the new material which continuously updates the CINCH data base. It also contains information regarding past and forthcoming seminars in Australia, bibliographical activities of the J.V. Barry Memorial Library and generally aims to encourage a greater interchange of information between all persons interested in Australian criminology.

The success of the Information Bulletin depends to a large degree on material contributed to it by its readers, and persons who would like a statement of their research to appear or wish to publicise conferences or seminars are invited to complete the appropriate forms supplied with each issue and return them to the address below.

Readers will appreciate that the information contained in the Information Bulletin can only be as accurate and reliable as its source.

The Australian Institute of Criminology hopes that the services provided by CINCH and this Information Bulletin prove valuable to those interested in criminology and looks forward to the continued interest and assistance of its readers.

PARLIAMENTARY QUESTIONS AND DEBATES

Our recent Reader Evaluation Survey resulted in a number of requests for the inclusion of references to parliamentary questions and debates in the *Information Bulletin of Australian Criminology*

The Editorial Committee requested the Commonwealth and State parliamentary libraries for this information. Replies have so far been received from the parliamentary libraries of the Commonwealth, Tasmania and New South Wales. The Commonwealth Parliamentary Library has offered the Committee access to its files; the Tasmanian Parliamentary Library has agreed to supply copies of parliamentary questions; but the New South Wales Parliamentary Library was unable to offer any assistance.

Over the next three months the Editorial Committee will accept the Commonwealth's offer and renew its efforts to gain the assistance of the parliamentary libraries in the other States of Australia.

In the meantime, details of Tasmanian parliamentary questions, together with relevant references to the Hansard of the Australian Capital Territory Legislative Assembly are published below.

CURRENT RESEARCH

690 CRIME – NSW – HISTORY

Topic: Crime and Social Control in New South Wales, c.1831-1861
Auspices: Department of History, S.G.S., Australian National University
Researcher: Michael Sturma
Address: Department of History, S.G.S., Australian National University, PO Box 4, Canberra. ACT. 2600
Duration of research: To be completed August 1979
Funding: Australian National University Ph.D. Scholarship
Outline: Research is focused on crime and law enforcement within the context of New South Wales' transition from a penal colony to a free self-governing community. Of central concern are changing perceptions and definitions of crime, the colony's criminal statistics, community interaction with the police and magistracy, and collective violence.

RECENTLY COMPLETED RESEARCH

691 LEGAL AID

- Topic:** Practising Poverty Law: Towards the Organisation of Law Based Aid for the Poor
(Legal Aid, Legal Services, Poverty Law, Law Based Social Change)
- Auspices:** The Brotherhood of St Laurence, Fitzroy Legal Service
- Researchers:** Susan Bothmann
Robert Gordon
- Address:** Fitzroy Legal Service, PO Box 155, Fitzroy. Vic. 3065
- Funding:** The Brotherhood of St Laurence
- Outline:** The research was originally commissioned to examine the feasibility of establishing a poverty law practice in Metropolitan Melbourne. In the course of completing this requirement it developed into a general examination and discussion of 'poverty law', in an Australian context.
The authors define poverty law and then construct an ideal type 'poverty law' practice. The 'ideal type' is placed in a model environment (inner suburb of Melbourne) and its potential operation examined through extensive fieldwork.
The research examines 5 central issues: i) overcoming alienation; ii) accountability; iii) developing a change oriented legal resource; iv) service delivery and access; v) economic feasibility.
The approach taken underlines the view that legal aid for low income people means more than providing immediate relief from law-based problems. Poverty law is seen as a process of social action.
