Introduction

The Australian Institute of Criminology has established a national clearinghouse of criminological information, and as part of its function the library maintains a computerised data base CINCH (Computerised Information from National Criminological Holdings). There are currently 6000 journal citations and 1200 monograph citations on CINCH including material indexed up to September 1978 for journal articles and 1979 for monographs. Requests for bibliographies derived from the CINCH data base should be directed to the Information Services Librarian.

The *Information Bulletin of Australian Criminology* is published quarterly. It contains information regarding 'Currently and Recently Completed Research', past and forthcoming seminars in Australian and bibliographical activities of the J.V. Barry Memorial Library. It also generally aims to encourage a greater interchange of information between all persons interested in Australian criminology. In future papers from published conferences and chapters in monographs will be indexed.

The success of the *Information Bulletin* depends to a large degree on material contributed to it by its readers, and persons who would like a statement of their research to appear or wish to publicise conferences or seminars are invited to complete the appropriate forms supplied with each issue and return them to the address below.

Readers will appreciate that the information contained in the *Information Bulletin* can only be as accurate and reliable as its source.

The Australian Institute of Criminology hopes that the services provided by this publication prove valuable to those interested in criminology and looks forward to the continued interest and assistance of its readers.

Researcher: Ivan Potas
Address: P.O. Box 28
Woden, A.C.T. 2606

Duration of

Research: No fixed time

Funding: Australian Institute of Criminology

Outline: Initial steps have been taken in the design of a research project which is to monitor the work of the newly created Office of the Director of Public Prosecutions (Cth). With a specially designed statistical return it is proposed to examine the kind of cases that that Office will be handling, what charges are proceeded with, dropped or altered during the preparation of the case for trial (and the reason for these), as well as collecting data on the outcome of prosecutions. The data so obtained will be analysed and fed back to the DPP for his consideration. It is hoped that this information will form a valuable management tool for the DPP, assist in the making of policy decisions and ultimately contribute towards the development of prosecutorial guidelines.

332 SURVEY OF A.C.T. PRISONERS IN N.S.W. PRISONS

Topic: Survey of A.C.T. Prisoners in N.S.W. Prisons
Auspices: Review of Welfare Services and Policies in the A.C.T.
Researchers: David Biles and Geoff Cuddihy
Address for: Australian Institute of Criminology
P.O. Box 28
Woden, A.C.T. 2606

Duration of

Research: July to September 1984

Funding:

Review of Welfare Services and Policies in the A.C.T.

Outline:

Through interviews with all A.C.T. prisoners serving sentences in N.S.W. prisons and, with the permission of the prisoners, interviews with their families, this project aims to assess the opportunities and possible difficulties these prisoners experience in maintaining family relationships and engaging the intervention of welfare staff.
